Unfortunately, there is no direct download for the Mac version of Pages To download the application, proceed to the App Store via the link below.. Overall, Apple Pages is a solid word-processing app, which can be used even by novice users to create visually stunning papers.. As such, this operating system lays a foundation for future upgrades. Although it can take some getting used to if you've used Word all your life, once you get the grip of it it is easy to use, relatively inexpensive (it can now be purchased separately or comes as part of the iWork suite) and as expected from an Apple product, the graphic design features are second to none.
